

MS - Manuscript SL - Straightline (rimless)

**Framing:** A three character "code" (two numbers and a letter) that describes the number, the position, and the character of the lines that frame the marking.

1st character The number of exterior frame lines

2nd character The number of interior frame lines

3rd character The nature of the outermost frame line

C - Cogged H - Heavy, (thick)

D - Dashed or dotted P - Plain, (thin)

F - Fancy R - Rimless (no exterior frame)

T - Toothed

By far the most commonly encountered combination of these codes will be "CI 10P" - A circular marking with one plain outer frame line and no inner frame line.

**Size:** The diameter, or width by height of the marking. A size will be given for each frame line, separated by "/". For straightline, irregular, pictorial, and rimless markings the extreme dimensions will be reported. Measurements are to the nearest half-millimeter. For an obviously distorted circular marking, an average diameter will be reported.

**5 - Description of Device** The layout of the date stamp is given.

T - Town, S - State, Z - Zip Code

( ) - the central portion of the date stamp.

m - month, d - day, h - hour, y- year

Additional information after the ( ) can be USPO, USPS, REG, etc.

[T(m/d/h)S]y shows a duplex cancel with the year between date stamp & grid.

**6 - Type of Device:** A four or five character abbreviation to describe the type of device used to create the postal marking.

Aux - Auxiliary, instructional handstamps of many types

Doane - Doane style postmarks

Dplx - Duplex (commonly with an oval, grid killer)

Flag - Machine Flag cancels

Hstp - Handstamp

Ijet - Ink Jet (spray) markings

Mach - Machine

Mscp - Manuscript

Pict - Pictorial postmarks of recent years

Rolr - Continuous, roller applied postmark

4bars - 4-bar handstamps of various types with "S" for sixe of bars.

**Killers and Comments:** A narrative description of the killer(s) used with the marking, and other comments about the marking.

Slogan postmarks will be described and the wording reported along with a description of any illustration included in the postal marking.

The descriptions, combined with the tracings, should make it possible to identify examples of each reported marking.

Items from the addendum are listed in bold & blue - **001**.
